

Saw Palmetto berries contain a variety of fatty acids and sterols that help maintain prostate and male urinary system health. A healthy prostate is very important for the proper function of the male urinary and reproductive systems.[†]

Saw Palmetto is used extensively in Europe where important scientific research has shown positive results. Our product conforms to dosage and mode of administration as established by the German Commission E monograph and contains standardized Saw Palmetto (*Serenoa repens*) extract from the highest grade whole, mature ripe fruit.[†]

Our Advanced Herbal Delivery System[®] process makes our Saw Palmetto easier to digest and more available than plain powder, resulting in a premium Saw Palmetto supplement.
