

Cinnamon is a spice obtained from the inner bark of several trees from the genus *Cinnamomum*. Some research suggests that cinnamon can support healthy blood sugar metabolism.<sup>†</sup> The volatile oils of cinnamon bark, including cinnamaldehyde, are thought to be the active constituents of cinnamon. Along with whole ground cassia cinnamon, our **Ultimate Blood Sugar Support** provides chromium that is chelated to rice protein. Chromium is an essential trace mineral that may support healthy blood sugar levels by increasing pancreatic beta-cell glucose sensitivity.<sup>†</sup>

**WARNING:** Chromium may affect insulin and glucose levels. Diabetics and those with blood sugar concerns should speak with their healthcare professional before taking this product.

**We Guarantee Our Supplements  
for Potency and Purity**
