

SUGGESTED USAGE: Shake well before use. Spray 2 times under tongue, hold for 20 seconds and then swallow. Consume 1 to 2 times daily, or as directed by your healthcare practitioner. Best when taken with a fat-containing meal.

HOW IT WORKS: This Protocol For Life Balance® product combines two extensively researched nutrients in a convenient liposomal spray. Both Vitamin D₃ and Vitamin K₂ are well known for their roles in the maintenance of skeletal health.* In addition, emerging research indicates that both of these vitamins are also important for a healthy cardiovascular system.*

CAUTIONS/INTERACTIONS: Vitamin K₂ may interact with anticoagulant medications; in addition, Vitamin E supplements may affect Vitamin K₂ metabolism. Vitamin D₃ should be used cautiously by those taking cardiac glycosides and anyone with hypercalcemia. Vitamin D₃ supplements may interact with atorvastatin and thiazide diuretics. If you are taking anticoagulant or any other pharmaceutical medications, high doses of supplemental Vitamin E, or if you have any bleeding disorder, consult your healthcare practitioner before using this product.

Contains Xylitol, do not feed to pets.
