Nutri-Dose™
B-12 10,000 mcg Energy Boost*

B Vitamins are essential components in most major metabolic reactions as they play an important role in energy production, including the metabolism of lipids, carbohydrates, and proteins.* Vitamin B12 facilitates energy production and is required for nucleic acid (DNA) synthesis, methionine synthesis from cysteine, and normal myelin synthesis in the nervous system.* Along with vitamin B6 and folic acid, adequate levels of vitamin B12 are required to maintain healthy plasma homocysteine levels.* The elderly and strict vegetarians are often at risk for Vitamin B12 deficiency, either due to low dietary intake or decreased absorption.* B12 10,000 mcg Nutri-Dose™ is a convenient and palatable liquid formulation that is absorbed quickly by the body, delivering rapid, energizing nutrition.*

***These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.**

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children. Contains Xylitol, do not feed to pets.
