Not manufactured with yeast, wheat, gluten, soy, corn, milk, egg, fish or shellfish ingredients. Produced in a GMP facility that processes other ingredients containing these allergens.

Natural color variation may occur in this product.

MCT Oil has naturally occurring fatty acids Caprylic Acid (C8:0) and Capric Acid (C10:0).

Pharmaceutical Grade MCT Oil.

SUGGESTED USAGE: Take 1 tablespoon 1 to 3 times daily, or as directed by your healthcare practitioner.

HOW IT WORKS: MCTs (Medium-Chain Triglycerides) are fats that are metabolized differently than most dietary fats.* Unlike longer chain triglycerides, MCTs require little or no enzymatic breakdown and are easily absorbed across the wall of the small intestine and delivered straight to the liver where they can be used directly for energy production (instead of being stored as fat).* In essence, they act similar to carbohydrates, but without the requirement of insulin and with no affect on blood sugar.* Studies have demonstrated that MCT Oil consumption along with a healthy diet can help to maintain a healthy body weight, while sparing lean tissue.*

CAUTIONS/INTERACTIONS: If you are diabetic, epileptic or if you have liver disease, please contact your healthcare practitioner prior to using this product. MCTs can cause GI discomfort when used in high doses. Taking this product with food can reduce these effects.

Storage Guidance: Store in a cool, dry and dark environment in tightly sealed original container. After opening, product can be refrigerated or stored at cool room temperature.
