

SUGGESTED USAGE: Take 1 capsule 1 to 2 times daily. For children (age 4 & up), take 1 capsule daily, or capsule can be opened and added to food or beverage. Not intended for use by children under 4.

REFRIGERATE AFTER OPENING TO MAINTAIN POTENCY.

HOW IT WORKS: ProtoDophilus Respiratory Care is a probiotic featuring *L. acidophilus* NCFM®, one of the premier clinically tested probiotic strains available. NCFM® has been studied alone and in combination with *B. lactis* BI-04 and has been shown to support a robust, but balanced, response to seasonal immune system challenges, as well as to support an active lifestyle.* NCFM® is a versatile probiotic strain that rapidly populates the intestine and adheres to the intestinal wall, which is helpful for use during and after temporary disruptions to intestinal microbiota.*

CAUTIONS/INTERACTIONS: Consult physician if pregnant/nursing, taking medication (especially immune-suppressing drugs), or have a medical condition (especially if immune system is compromised). Keep out of reach of children.
