SUGGESTED USAGE: Take 1 lozenge 1 to 4 times daily, or as directed by your healthcare practitioner. Allow lozenge to dissolve slowly and completely in mouth and swallow.

Shelf Stable. After Opening Refrigerate to Extend Potency.

HOW IT WORKS: E.N.T. Biotic™ is a probiotic lozenge featuring the naturally occurring microorganism *Streptococcus salivarius* BLIS K12®. Pre-clinical studies have demonstrated that *S. salivarius* can help to maintain a balanced immune response and clinical studies have shown that it can support oral and throat health.* E.N.T. Biotic™ BLIS K12® successfully colonizes the oral cavity at the expense of other microorganisms, thereby promoting oral health.* In addition, it can freshen breath when used in conjunction with proper oral hygiene.*

CAUTIONS/INTERACTIONS: Individuals with severe immune system deficit should consult their healthcare practitioner before taking this product. Because some antibiotics may inactivate *S. salivarius*, take this product at least 2 hours before or after taking antibiotic medications. Contains Xylitol, do not feed to pets.

Do Not Eat Freshness Packet. Keep in Bottle.
