30% Increase in Muscle Strength[□]

The unique protein blend includes an anabolic module of 20 grams of whey protein and 6.2 grams of leucine that was clinically tested in an 8-week study of athletes performing an intense resistance exercise training regimen. The athletes using this proprietary module of whey protein and leucine demonstrated an increased improvement in muscle strength and muscle size as compared to those performing the same exercise training regimen who did not consume the proprietary module. In a clinical study of participants using a unilateral lower limb resistance training protocol, even the untrained limb demonstrated increases in muscle size.*

STACK WITH PRO PERFORMANCE® AMP
Amplified Wheybold Extreme 60™ Casein, Ripped Vitapak® Program and Amplified Creatine XXX™ Ripped.

[□]In an eight-week, randomized, double-blind, placebo-controlled study of 30 healthy male volunteers comparing 1 set resistance training (RT) + active or carbohydrate placebo to 2 sets RT alone with no supplement, the active group showed equal gains in maximal muscle strength (MMS) and muscle endurance (ME) compared to the control group.

^{*}When used in conjunction with an exercise program. As with any food product, use of this product alone will not lead to increased muscle mass or strength.

[†]Inclusion of these enzymes resulted in a 12% greater protein breakdown as measured by the release profile of the amino acid tyrosine. These results represent the enzyme activity potential under simulated conditions. Effects in the human body have not been studied.

[△]In a double-blind, randomized, placebo-controlled, cross-over study, 25 subjects exercised on a treadmill on two occasions. On one occasion the subjects took the thermogenic blend and on the second occasion, they took a placebo. When the subjects took the thermogenic blend, they burned 3 times more calories before, 3% more calories during and 12x more calories for up to one hour after exercise when compared to the placebo.

What is Amplified Wheybold Extreme 60™ Ripped?

GNC's most advanced protein, Amplified Wheybold Extreme 60™ Original, has evolved even further to help meet your specific training goals, build lean muscle and fuel a ripped and muscular physique.* This product is the only thermogenic-enhanced, clinically proven whey protein isolate designed to help you support lean muscle mass and fuel a shredded physique. With a base of whey and leucine, this formula is clinically proven to fuel increased strength, muscle size and a 100% increase in exercise efficiency.** Our GNC scientists have AMPed up the protein with an Energizing Thermogenic Shred Complex and a Metabolizer Matrix with clinically proven ingredients to maximize your results, making this product a combination of 7 products in 1!

Amplified Wheybold Extreme 60™ Ripped – Burn Calories, Build Muscle

This breakthrough formula takes protein functionality and performance to new levels so you can achieve chiseled, highly developed muscles.*

Energizing Thermogenic Shred Complex & Metabolizer Matrix

Amplified Wheybold Extreme 60™ Ripped delivers proven ingredients in the powerful Energizing Thermogenic Shred Complex to help increase energy, calorie burning, boost training performance, and speed up metabolism, plus clinically studied Green Coffee Bean Extract.* In addition, the Metabolizer Matrix features a blend of key amino acids specifically designed to help fuel the metabolism of long chain fatty acids.* Combining alanine, tyrosine, methionine and 1 gram of L-Carnitine makes this a potent blend for any athlete looking to get ripped.†*

The 1 gram of L-Carnitine helps to transform fatty acids into energy for muscles and the body's energy production system.†*

Highly Effective Whey-Leucine Base

The impressive 60 grams of protein is made entirely from two of the highest quality, fast-absorbing forms of whey protein, isolates and hydrolysates, including 10 grams of leucine to create an ideal environment for muscle protein synthesis.†* This potent blend delivers Arginine, which is involved in creatine synthesis, and over 10 grams of glutamine to provide anabolic effects. In fact, the whey and leucine blend in this product has been shown to increase muscle strength and stamina with half the sets.**

Powerful Amino Acid System

This product is loaded with an array of key amino acids necessary for muscle building and metabolism support, including L-Carnitine, Arginine and over 10 grams of glutamine.** These are important to help prevent breakdown of lean muscle.*

Digestive Enzyme Blend for 12% Greater Protein Breakdown

This digestive enzyme blend with proven bioactivity is designed to accelerate the availability and absorption of amino acids in muscles.* This proprietary enzyme blend provides a 12% greater protein breakdown for improved uptake.**

Amplified Wheybold Extreme 60™ Ripped Features 7 Products in 1!

1. Whey Protein Isolate
2. Amino Acid Complex
3. Leucine
4. Carnitine
5. Thermogenic
6. Green Coffee Bean Extract
7. Digestive Enzymes
