ULTIMATE GAMMA VITAMIN E™

600 MG TOTAL TOCOPHEROLS

100 IU NATURAL VITAMIN E • 500 MG GAMMA TOCOPHEROL

360 Easy-to-Swallow Capsules

Andrew Lessman's ULTIMATE GAMMA VITAMIN E is a unique, ultra-high potency Gamma Vitamin E formula. It is 100% natural and dramatically different from virtually all Vitamin E formulas found in stores by providing exceptionally high levels of **Gamma Vitamin E** (500 mg), along with all the other naturally occurring forms of Vitamin E (Alpha, Beta and Delta Tocopherol). Millions of individuals supplement Vitamin E for its powerful protective benefits and **Gamma Tocopherol** is by far the most potent protector among the four Tocopherol forms of Vitamin E. Nevertheless, Gamma Vitamin E is not available in store-bought Vitamin E formulas. This, despite the fact that it is the most predominant form found in nature, and that recent research has shown that it is the most protective of all four naturally occurring Tocopherols. All four Tocopherol forms of Vitamin E are found in our diet, but only in foods we consume infrequently, such as high fat vegetable oils, and as a result, the Vitamin E content in our diet is extremely low. Making matters worse is the fact that most Vitamin E supplements ignore Mother Nature by delivering only **Alpha** Tocopherol, and do so primarily in its far less beneficial synthetic form. As a result, millions of Americans unknowingly supplement Vitamin E that bears no resemblance to the Vitamin E found in food or nature. Our **Ultimate Gamma Vitamin E** is truly complete and uniquely natural – providing 500 mg of **Gamma** Tocopherol, which is Mother Nature's chief and preferred form of Vitamin E and its most powerful anti-oxidant, along with 100 IU of Alpha Tocopherol and 33 mg of Beta and Delta Tocopherols. Don't be fooled by other so-called natural Vitamin E or mixed tocopherol formulas that deliver little or no true Natural Vitamin E from its true natural form – **Gamma Tocopherol**.
