Our product is truly a food multi, and will provide approximately 1 full gram of phyto-based protein per serving.

Each serving provides over 1.2 grams of probiotic based whole cell protein matrix. A special fermentation process of *Saccharomyces cerevisiae* allows essential vitamins and minerals to interact with cell components while gentle processing conditions preserve their levels along with vital micronutrients and bio-active peptides. Just as organic vegetables will contain higher amounts of nutrients, but will vary based on the living cells that make up the plant, the nutrient amounts in the inactivated cells of our **Perfect by Nature™ Complete Food Multi** will have naturally occurring variations. Our **Perfect by Nature™** products are designed to maximize your health and performance using the power of sustainable foods. Suitable for the whole family!

¹ Standardized blend typically contains at least 40% urolic acid and 5% gingerols for those botanicals
