

Suggested Usage: Take 1 tablet daily.

Methylfolate is the biologically active, naturally occurring form of folate that is used for fundamental body functions like normal cell division and the synthesis of neurotransmitters and DNA.* Unlike regular folic acid, Methylfolate has been shown to penetrate the blood-brain barrier, where it helps to support neurological health.* Quatrefolic® is a patented form of Methylfolate that has demonstrated bioavailability superior to that of folic acid from dietary sources.

Caution: For adults only. The elderly and individuals with conditions that may impair vitamin B-12 absorption should frequently check vitamin B-12 status when taking this product as high-dose folic acid may mask vitamin B-12 deficiency. Consult physician if pregnant/nursing, taking medication (especially phenobarbital, phenytoin, primidone, and methotrexate), or have a medical condition (especially any condition involving nutrient malabsorption). Keep out of reach of children. Do Not Eat Freshness Packet. Keep in Bottle.
