ULTIMATE EYE SUPPORT®

10 MG LUTEIN • 5 MG ZEAXANTHIN

BILBERRY • GAMMA TOCOPHEROL • EGCG
GRAPE SEED • BIOFLAVONOIDS • ELDERBERRY

DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

Andrew Lessman's ULTIMATE EYE SUPPORT is a comprehensive blend of ingredients to promote healthy vision and to protect the delicate tissues of the eye. It contains exceptional levels of both **Lutein** and **Zeaxanthin** – Mother Nature's most powerful, protective compounds for the delicate tissues of the eye. Not surprising, given their essential role in vision, **Lutein** and **Zeaxanthin** are most highly concentrated in the retina and its macular region. **Ultimate Eye Support** provides far higher levels of **Lutein** than any leading multivitamin. It also contains 5 mg of total **Zeaxanthin** – just as important as **Lutein**, but ignored in leading multivitamins and only found at low levels in most eye formulas. **Lutein** and **Zeaxanthin** cannot be produced by the body, so their benefits can only come from food or supplements. Given the low levels of **Lutein** and **Zeaxanthin** in the American diet, supplementation is essential. **Ultimate Eye Support** also provides standardized extracts of **Bilberry** and **Elderberry** providing a rich supply of purple Anthocyanins to support healthy night vision. We also uniquely include Gamma Tocopherol – the most protective form of Vitamin E that is absent from other eye formulas. We also provide our EGCG-rich **Green Tea Extract** to further protect the delicate tissues of the eye, along with our **Citrus Bioflavonoids**, non-acidic **Vitamin C** and our OPC-rich (Oligomeric Proanthocyanidins) **Grape Seed Extract** that targets the eye's micro-circulation. In short, **Ultimate Eye Support** provides Mother Nature's best tools to support a lifetime of healthy vision and to protect the delicate lens, retina, and macula of the eye.

Always Wear UV-Protective Sunglasses Outdoors.
