PROFESSIONAL USE ONLY

Not for resale on third-party websites, including, but not limited to, Amazon® and eBay®.

DIRECTIONS: Take contents of one packet daily, or as directed by your healthcare practitioner.

Consult your healthcare practitioner prior to use, especially if you have liver disease, are an organ transplant recipient, or are taking prescription drugs. Red yeast rice may inhibit the body's production of CoQ10. Do not use if tamper seal is damaged.

Cardio Essentials™ is a combination of four targeted nutritional formulas packaged together to provide convenience and comprehensive cardiovascular support.*

CoQmax CF™ is XYMOGEN's proprietary, crystal-free, 50 mg CoQ10 for convenient dosing. The formula offers unparalleled absorption and bioavailability. CoQmax CF has been shown in clinical trials to be over eight times more absorbable than powdered CoQ10 and more than twice as bioavailable as other oil-based or so-called "nano"-dispersed formulas on the market. CoQmax CF's proprietary multi-lipid carrier is a formulation that is unmatched for optimal utilization in the support of cardiovascular and energy-based health needs.*

NiaVasc™ is XYMOGEN's sustained-release niacin that uses proprietary wax-coated technology. The formula supports the maintenance of healthy lipid levels equally as well as the instant-release forms of niacin do, but with dramatically less flushing. Nearly every panel of experts, including the National Cholesterol Education Program (NCEP) panel, considers niacin an important nutrient for support of cardiovascular health.*

OmegaPure 600 EC™ is International Fish Oil Standards (IFOS) five-star certified, which assures the highest level of purity, stability, and potency in fish oils. Each fish-gelatin-based softgel provides 600 mg of EPA and DHA. The softgels are covered with a GRAS-certified enteric coating so that they are easy to swallow and the EPA/DHA content is optimally absorbed. EPA and DHA from fish oil promote wellness by supporting cardiovascular health, cytokine balance, joint health, and brain and nervous system function.*

Red Yeast Rice is developed by fermenting *Monascus purpureus* (red yeast) on commercially grown rice. It has been found to naturally support healthy blood lipid levels already in the normal range. This formula is citrinin-free.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Each packet contains one: CoQmax CF™ softgel, NiaVasc™ tablet, OmegaPure 600 EC™ softgel, Red Yeast Rice capsule.

CAUTIONS: Do not take if you are pregnant or lactating.

STORAGE: Keep closed in a cool, dry place out of reach of children.

DOES NOT CONTAIN: Wheat, gluten, corn, soy protein, dairy products, shellfish, peanuts, tree nuts, egg, ingredients derived from genetically modified organisms (GMOs), artificial colors, artificial sweeteners, or artificial preservatives.
