Branched Chain Amino Acid Powder

L-Leucine, L-Isoleucine, L-Valine
Pharmaceutical Grade

NET WT. 12 OZ. (340 g)

A Dietary Supplement

SUGGESTED USAGE: Spoon Stirred: Add 2 level teaspoons of BCAA Powder to a glass filled with 8-10 oz. of water or your favorite beverage and mix vigorously with a spoon for about 15-20 seconds. Take 1 to 3 times daily. Can be taken before meals or before and after exercise.

Shaker: Add 2 level teaspoons of BCAA Powder to your shaker cup filled with 8-10 oz. of water or your favorite beverage. Cover and shake for about 10 seconds to ensure a good mix. Take 1 to 3 times daily. Can be taken before meals or before and after exercise. **Tip:** Try adding BCAA Powder to your favorite protein powder, meal replacement product, or weight-gainer shake.

The Branched Chain Amino Acids (BCAAs), Leucine, Isoleucine and Valine are essential amino acids, and thus cannot be made in the body.* BCAAs are critical for muscle protein synthesis, and because BCAAs can be used as fuel during intense exercise, BCAA supplementation can help to preserve existing muscle tissue.* In addition, BCAAs can support the recovery process by promoting the normal repair processes that take place after exertion.* BCAAs also play an important role in the maintenance of proper immune system function and the support of healthy aging.*
