

Suggested Usage: Take 1 capsule daily with a meal.

Vitamin K is well known for its role in the synthesis of a number of blood coagulation factors.* During recent years however, Vitamin K2 and its dependent proteins have been found to play a central role in whole-body calcium metabolism.* These Vitamin K2-dependent proteins are now known to be essential for normal bone mineralization, as well as for other critical functions unrelated to coagulation.* NOW® MK-7 contains a highly biologically active form of Vitamin K2 derived from non-GMO natto, a traditional Japanese fermented soyfood.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. Consult physician if pregnant/nursing, taking medication (especially anti-coagulant drugs such as warfarin, Coumadin®, heparin), or have a medical condition. Keep out of reach of children.

Do Not Eat Freshness Packet.
Keep in Bottle.
