Maximize Muscle Growth & Recovery*

BCAAFit 2000 provides bodybuilders, athletes and dieters 2,000 mg (2g) of free-form, branched-chain amino acids (BCAAs) per 4 capsule serving. Recent research has shown the three BCAAs to be the most valuable of the eight essential amino acids for heavy training and intense exercise. BCAAs help build muscle, inhibit muscle breakdown especially when dieting or leaning down, and increase athletic endurance and power. Take BCAAFit 2000 daily and maximize your muscle growth, endurance and recovery.*
