megablend with lipase

fish gelatin

DIETARY SUPPLEMENT

omega 3 fatty acids

healthy weight loss support[†]

supports lean muscle while dieting

FISH OIL & CLA megablend with lipase takes the unique health benefits of these oils to an entirely new level. New research is suggesting that the novel combination of fish oil plus conjugated linoleic acid (CLA) may provide additional benefits for increasing weight loss. Additionally, research suggests that CLA supports lean muscle, which is great news for dieters. Lipase is used in the body to increase absorption and improve digestion of fatty acids.†
