

IMMUNOCAL[®]

PLATINUM

WHEY PROTEIN ISOLATE POWDER WITH MINERALS AND CREATINE

- Natural source of the glutathione precursor cysteine for the maintenance of a strong immune system*
- Helps to maintain bone health by reducing calcium loss*
- Maintains proper muscle function*

30 pouches (0.44 oz/12.5 g each; net content 13.2 oz/375 g)

DIETARY SUPPLEMENT

CAUTIONS AND WARNINGS:

Patients undergoing immunosuppressive therapy should discuss the use of this product with their health care practitioner. Each serving of Immunocal[®] Platinum contains 9 g of protein. Patients on a protein-restricted diet need to take this into account when calculating their daily protein load. Although a bovine milk derivative, each pouch contains less than 1% lactose and is therefore well tolerated by lactose-intolerant individuals. Persons receiving any kind of medical treatment should consult a health care practitioner before using this product. Consult a health care practitioner before use if you are pregnant or breastfeeding, have impaired renal function, or use potassium-sparing diuretics (spironolactone, triamterene, amiloride). Gastrointestinal bleeding and cramps are possible if the product is not sufficiently refrigerated.

DIRECTIONS: Add 1-2 pouches (12.5 g - 25 g) of Immunocal[®] Platinum to 30 ml - 60 ml (1.8 oz - 2 fl. oz) of your favorite juice and stir well or shake using Immunocal shaker cup with lid. Do not use a high speed blender. Add additional liquid as desired and drink. Refer to the insert for more information.

INGREDIENTS PER POUCH: Whey Protein Isolate, Creatine (monohydrate), Potassium (chloride monohydrate), Sodium (citrate), Calcium (citrate), Magnesium (citrate) and Citric Acid.

LA INVENCIÓN DE IMMUNOCAL[®] PLATINUM

Contribución de la ciencia a la salud. La Universidad de Harvard, director del Centro de Investigación de la Inmunología del Centro de Investigación de la Inmunología de la Universidad de Harvard, el Dr. David S. Saper, ha desarrollado un producto que combina la proteína de suero de leche con los minerales y la creatina para mejorar la salud y el bienestar. Este producto es el resultado de la investigación científica y la experiencia de la Universidad de Harvard. Este producto es el resultado de la investigación científica y la experiencia de la Universidad de Harvard.

THE INVENTION OF IMMUNOCAL[®] PLATINUM

A world-renowned research scientist, a Harvard University graduate and the head of the Department of Immunology at the Harvard Medical School, Dr. David S. Saper has spent more than 20 years in basic and clinical research that has led to the development of Immunocal[®] Platinum. A combination of whey protein isolate, minerals and creatine, Immunocal[®] Platinum is a natural source of the glutathione precursor cysteine for the maintenance of a strong immune system. Immunocal[®] Platinum helps to maintain proper muscle function and helps maintain bone health by reducing calcium loss.*
