

Liquid Health™ Attention

Liquid Health™ Attention is a liquid ADD and ADHD supplement for kids and adults. Research has shown that liquid ADD and ADHD supplements can provide the essential minerals and amino acids for proper brain development, function and focus in both children and adults. Signs of attention deficit or reduced focus may or may not be an indication of ADD or ADHD. For best results, take with Liquid Health™ Children's Multiple, which contains trace minerals and [enzymes](#) or Liquid Health™ Complete Multiple for adults.

Many times ADD/ADHD attention difficulties are treated using medication or behavior therapy. However, even with treatment many parents see little improvement in the learning disabilities of their children. Not surprisingly, proper nutritional, exercise and sleep can be a helpful support. Supporting the nutritional needs of a child with ADD/ADHD can be very beneficial in improving educational and behavior issues and symptoms.

Liquid Health™ Attention Supplement Facts

Serving size 1 oz.

Directions:

Shake well. Refrigerate after opening. Should be taken with food. May be mixed with juice for best taste. After results are seen, reduce to lowest effective serving. Serving may be increased up to 50% as needed for results. Settling is normal. Protect from heat, light, & moisture. As with any natural product, color and taste may vary.
