Dietary Supplement

PerfectAmino™ contains the eight essential amino acids the body needs to support and maintain its muscular, skeletal, enzymatic, and hormonal systems. The essential amino acids in PerfectAmino are in the exact proportions needed for maximum utilization by the body.

PerfectAmino features an Amino Acid Utilization™ (AAU) of at least 99%. This means that 99% or more of the amino acids are directly used as building blocks in the body's protein synthesis. This is more than twice the AAU of other dietary protein sources (see chart below).
