

Enteric Coated Fish Oil

Supplies significant amounts of essential omega-3 fatty acids, derived from marine lipid concentrate. Processed by molecular distillation, Enteric Coated Fish oils are an excellent source of these fatty acids.

Neuromins™ (Algae Source DHA)

Formula	Size	S.R.P.
NRMV	60 Vegetarian Softgels	\$33.80
Health Function: Cardiovascular Health		
Suggested Usage: 1 to 2 Daily		

Neuromins™, provided by Douglas Laboratories, is an excellent source of docosahexaenoic acid (DHA), an omega-3 fatty acid, in its natural, triglyceride form. Neuromins DHA is obtained from marine microalgae, and is currently the only vegetarian source of DHA. This single nutrient fatty acid supplement is free of eicosapentaenoic acid (EPA), an omega-3 fatty acid which is present in fish oil supplements along with DHA. Neuromins is a highly purified DHA-only oil completely free of cholesterol.

water, carrageenan, sorbitol, ascorbyl palmitate and tocopherols (antioxidants), natural flavor, sunflower lecithin, beta-carotene and caramel (coloring).

Opti-EPA™ Enteric-Coated

Formula	Size	S.R.P.
99276	60 Softgels	\$28.20
Health Function: Cardiovascular Health, Neurological		
Suggested Usage: 2 Daily		

Opti-EPA™ is concentrated marine fish oil, providing enriched levels of eicosapentaenoic acid and docosahexaenoic acid. Sufficient dietary levels of EPA and DHA fatty acids are important in the normal functioning of cardiovascular and neurological health. The oil used in Opti-EPA is the highest quality available and has gone through an extensive molecular distillation process to ensure the best possible product. This formulation is enteric-coated, significantly reducing the "fishy" taste sometimes associated with marine lipid supplements.
