

SUGGESTED USE: As a dietary supplement, take 2 scoops (1.5 g) in the morning and 2 scoops (1.5 g) in the evening mixed with water or your favorite beverage.

BENEFITS OF GLUTAMINE

Glutamine is a powerful amino acid that your body demands during intense exercise and metabolic stress (which includes injury, illness, dieting, etc). Depletion of Glutamine stores can decrease strength, stamina, and recovery. Many hard training athletes supplement their diet with glutamine to aid performance and recovery.*

THE GLUTAZORB® DIFFERENCE!

Patent-pending GlutaZorb® is an ultra-pure, pH-Correct Glutamine made using an enzymatically modified buffered fermentation process. Our scientist, Dr. Golini, discovered that buffering glutamine molecules creates a more stable form of Glutamine.*
