Suggested Use: As a dietary supplement, take one serving (3 leveled scoops) mixed with 16 ounces of water or suitable beverage and drink on a empty stomach. Take once in the morning and again in the evening for maximum results.

D-Aspartic Acid is one of the enantiomers of the amino acid known as Aspartate, where the common dietary enantiomer is L-Aspartate is a non-essential amino acid and can be incorporated into protein structures, although D-Aspartate is not commonly associated with protein structures. D-Aspartate has been found to be a constituent of human cartilage, enamel, and can be accumulated in the brain as well as being a constituent of red blood cell membrane.

D-Aspartic Acid (DAA) is suggested to be a regulator of testosterone synthesis and may act on a stimulatory receptor (NMDA). D-Aspartic Acid shows promise in increasing nitric oxide levels. Continuous supplementation of D-Aspartic Acid may only provide temporary increases in testosterone for healthy men. Cycling of D-Aspartic Acid is recommended and the most effective means of use.

Cycling: To achieve the maximum benefits from D-Aspartic Acid, follow our suggested use for 12 days ON and 12 days OFF. Cycling can be extended to 4-8 weeks ON and 2-4 weeks OFF. Experiment with cycling rates to find your optimal length of use between cycles.<sup>1</sup>

## SUPPLEMENT FACTS I

Serving Size: 3 leveled scoops (3g) Servings Per Container: About 83

> Amount Per Serving % Daily V 3000mg

P-Aspartic Acid
Daily Value Not Established.

Expiration Date

Manufactured for: Supplement Partners, LLC. 3820 W Happy Valley Rd Ste 141 - #420 Ingredients: D-Aspartic Acid Powder

Other Ingredients: None

Allergens: This product contains NO Soy, Dairy & Dairy Byproducts, Eggs, Fish, Shellfish, Wheat, Gluten, Tree Nuts, or Sesame Seeds.
