Omega-3 Supplement Made From
100% Arctic Cod Livers

Supports brain and visual development*

Dietary Supplement • 2 fl oz/60 mL

Every batch of Nordic Naturals fish oils is third-party tested for environmental toxins, including heavy metals, dioxins, and PCBs. All fish oils used in Nordic Naturals products surpass the strictest international standards for purity and freshness. Certificates of Analysis are available upon request.

Suggested Use: 1–5 milliliters daily, with food, or as directed by your health care professional or pharmacist. Clean pipette thoroughly between each use. To preserve freshness do not depress bulb in oil.

Do not take if tamper-evident seal is broken or missing. Refrigerate after opening. Best if used within 3 months after opening.

Warning: Consult with your physician before using this product if you are allergic to iodine, use blood thinners, or anticipate surgery. **Keep out of the reach of children**

Includes a
measured dropper for
convenient dosing.
Baby's DHA can be easily
added to formula or food.

A baby's brain more than doubles in size during the first years of life. DHA is the primary building block of brain tissue.* Adequate intake of DHA is essential for proper brain development, and remains necessary throughout life to maintain brain health.*

Nordic Naturals Baby's DHA is made from 100% Arctic Cod Liver Oil, and includes 75% of the daily value of vitamin D.

Nordic Naturals has always used 100% Arctic cod livers in our cod liver oil formulas—no fish body oils or synthetic additives are ever used. Arctic cod (Skrei) has one of the highest DHA, vitamin A, and vitamin D content of any cod species.

Every batch of Nordic Naturals fish oils is third-party tested for environmental toxins, including heavy metals, dioxins, and PCBs. All fish oils used in Nordic Naturals products surpass the strictest international standards for purity and freshness. Certificates of Analysis are available upon request.
