

Suggested Use: Adults allow one (1) to two (2) sublingual lozenges to dissolve slowly under the tongue before your busy workday, daily workout or anytime that you need a serious lift.

Sublingual lozenges ensure that ATP is absorbed quickly under the tongue to avoid its destruction from stomach acids and intestinal enzymes.

Store in a cool, dry place and away from direct light. Keep out of reach of children.

QUALITY AND POTENCY GUARANTEED.

MADE IN THE U.S.A.
