

Kaneka's premium formula provides CoQ10 as Ubiquinol, one of the most bioavailable forms.* CoQ10 is primarily naturally produced by the body, but with age, certain health conditions may reduce its ability to convert ubiquinone to ubiquinol, therefore supplementation may be recommended.* Medications such as statins, may lower your CoQ10 levels.*

CoQ10 can help:

- Promote healthy brain function.*
- Promote healthy energy.*
- Provide antioxidant support.*

Should not be used if tamper evident seal is broken. Keep out of reach of children. Store in a cool dry place.
