SUGGESTED USE: For a great tasting, delicious shake combine each scoop (26g) of the all new PSISOLATE™ protein with 4-6 ounces of cold water (depending on personal preference for desired thickness). For added body, blend two or three ice cubes with PSISOLATE™ Protein. Use 2-3 servings daily. Always drink 12 to 16 ounces of additional water for each protein shake consumed.

WHY PSISOLATE™?

ProSupps® PSISOLATE™ is a "Molecular Size Exclusion Filtration" whey isolate. This cold ultra-filtration method prevents the denaturing of the protein and yields a very highly bioactive whey protein isolate. This means MORE USABLE PROTEIN PER SCOOP.....After all, you are paying for protein you can USE right?
