

CODE 2240  
V1

**SUGGESTED USAGE:** Take 2 capsules daily, preferably with food.

Pyruvate, or pyruvic acid, is a biochemical compound that's involved in a number of metabolic processes in the body, including the metabolism of fat, proteins, and carbohydrates, the storage of glycogen, and the production of cellular energy.\* Pyruvate is necessary for the citric acid cycle (or Krebs cycle), which is the process through which our cells produce energy in the form of adenosine triphosphate (ATP).\* ATP is the body's primary chemical fuel and powers many vital functions, including energy production, muscle contraction, and cellular fuel replenishment.\*

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

**Caution:** For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children.

Do not eat freshness packet. Keep in bottle.
