

Suggested Usage: Take 1 capsule at the beginning of each meal. **Do not take on an empty stomach. Do not take if you have stomach or duodenal ulcers.**

NOW® Betaine HCl is formulated to support proper digestive conditions in the stomach.* Hydrochloric Acid (HCl) is normally produced in the stomach, where it assists protein digestion by activating pepsin, helps to maintain a healthy balance of gut flora, and stimulates the release of intestinal enzymes.* Pepsin is a protease produced in the stomach that partially breaks down proteins in foods.* HCl production tends to decline with age, so supplementing with HCl and pepsin may help to maintain normal digestive function.* This product uses a vegetarian acid-stable protease with activity equivalent to that of animal-derived pepsin.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition (especially acid reflux). Keep out of reach of children.
