

Suggested Usage: Take 1 capsule daily, preferably with a meal.

Alpha Lipoic Acid (ALA) is naturally produced in the human body in very small amounts, but is also available in some foods. ALA is unique in that it can function in both water and fat environments.* ALA promotes the production of glutathione and can also recycle vitamins C and E, thereby enhancing their antioxidant activities.* In addition, ALA may help to maintain healthy neural tissues, promote proper glucose metabolism and support healthy cardiovascular function.*
