

USAGE: Take 1 capsule 1 to 2 times per day or as directed by your qualified health care consultant.

NOTE: If you have a medical condition (especially diabetes, glucose control or hypotension), are pregnant, lactating, trying to conceive, under the age of 18, or taking medications (especially for diabetes, glucose control or blood pressure control), consult your health care practitioner before using this product.

Acetyl-L-Carnitine Arginate is a novel molecular combination of the amino acids Acetyl-L-Carnitine and L-Arginine. Acetyl-L-Carnitine is an amino acid found in high concentration in human brain, nerve, heart, liver and sperm cells. Acetyl-L-Carnitine supports energy production, via the metabolism of fatty acids to yield the universal energy molecule ATP.* As an antioxidant, Acetyl-L-Carnitine helps to protect neurons from damage caused by superoxide radicals.*

L-Arginine is utilized to produce nitric oxide, an important compound involved in circulation, and creatine, a compound needed to regenerate ATP stores.*

Keep out of the reach of children.
