

Suggested Usage: Take 2 capsules 1 to 2 times daily. RememBRAIN™ is a formulation that supports mental alertness and learning by promoting proper Acetylcholine (ACh) production and activity.* ACh is a neurotransmitter that is necessary for normal neurological and cognitive function, and whose production tends to decrease with age.* RememBRAIN™ combines Alpha-GPC (a bioavailable form of choline) to promote ACh production with Huperzine A to maintain ACh levels in the brain.* Phosphatidyl Serine is also included to support healthy membranes and efficient nerve cell signaling.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. Do not use if pregnant or nursing. Consult physician if taking medication (especially medications that affect the central nervous system) or have a medical condition (especially heart or lung conditions). Keep out of reach of children.

Do not eat freshness packet. Keep in bottle.
