*Daily Value not established.

Other Ingredients: Gelatin Capsule, Cellulose and Magnesium Stearate.

Discussion: This highly advanced formula consists of Calcium Asporotates™ and Magnesium Asporotates™. Asporotate™ minerals have been combined with aspartic acid, citric acid, and a special delactosed whey protein concentrate containing naturally occurring lactic acid. This combination process is intended to cause natural chelation. The final product contains Calcium Aspartate, Citrate and Orotate, as well as Magnesium Aspartate, Citrate and Orotate. This product contains no yeast or soy commonly found in full range amino acid chelates.

SOLARAY GUARANTEES that NO ingredients other than those listed on this label have been added to this product.
