

SUGGESTED USAGE: Take 1 capsule 1 to 2 times daily on an empty stomach, or as directed by your healthcare practitioner.

HOW IT WORKS: Nattokinase is an enzyme isolated from Natto, a traditional Japanese fermented soy food that has been consumed for thousands of years for its numerous health promoting properties.* More recently, both clinical and non-clinical studies have demonstrated that Nattokinase can promote heart and circulatory health by helping to maintain normal blood fluidity.* Each serving of Protocol For Life Balance® Non-GMO Nattokinase has 2000 FU (Fibrinolytic Units) for the maintenance of proper blood flow.*

CAUTIONS/INTERACTIONS: Nattokinase may interact with anticoagulant and antiplatelet medications, including NSAIDs, warfarin, heparins, and clopidogrel. Consult your healthcare practitioner before taking this product if you are taking blood thinning or other medications, if you have ongoing bleeding/coagulation issues (including but not limited to: active ulcer, recent surgery/trauma, hemophilia), if you have a medical condition including uncontrolled high blood pressure (equal or higher to 200 mmHg/110mmHg), if you are planning a surgical procedure, or if you are pregnant/nursing.
