

USAGE: Take 3 capsules twice per day with meals, preferably dividing the number of capsules equally with each meal (for a total of 6) to facilitate maximum absorption or as directed by your qualified health care consultant.

NOTE: If you have a medical condition, are pregnant, lactating, trying to conceive, or taking medications (especially warfarin/Coumadin), consult your health care practitioner before using this product.

BONE-UP® provides ossein hydroxyapatite complex (OHC) (from free-range Australian/New Zealand calves), which includes the superior combination of the inorganic calcium lattice of microcrystalline hydroxyapatite (MCHA) within an organic protein milieu. The OHC is combined with vitamin D₃ and vitamin K₂ as MK-7 from natural fermentation (a more bioavailable form of vitamin K) to support the deposition of calcium into the bones as well as to assist in building up the organic bone matrix.* Potassium citrate is also added for optimal osteo support.*

HEALTH CLAIM: Adequate calcium and vitamin D as part of a healthful diet, along with physical activity, may reduce the risk of osteoporosis later in life.

For best results, use with **Jarrow FORMULAS® JarroSil®**, the biologically **Activated Silicon®**.

Keep out of the reach of children.
