

SUGGESTED USAGE: Take 1 softgel 1 to 3 times daily preferably with fat containing meals, or as directed by your healthcare practitioner.

HOW IT WORKS: Ubiquinol is the active form of CoQ₁₀ produced naturally within the body that plays a central role in cellular energy production.* Ubiquinol is known for its powerful free radical neutralizing activity, which is important for the protection of biological membranes against oxidative stress, as well as for regenerating other antioxidants such as Vitamin C and Vitamin E.* Clinical and experimental studies have demonstrated that Ubiquinol can help to support normal cardiovascular and neuronal functions, and may also support male reproductive health.* Ubiquinol has superior bioavailability to other forms of CoQ₁₀, as shown in clinical trials.*

CAUTIONS/INTERACTIONS: Ubiquinol may interact with warfarin. If you are taking warfarin or other anticoagulant medications, consult your healthcare practitioner before you use this product.

Do Not Eat Freshness Packet. Keep in Bottle.
