

SUGGESTED USAGE: Take 2 tablets twice daily with food for 30 days. Thereafter, as a maintenance dose, take 2 tablets daily with food.

HOW IT WORKS: Clinical Strength Cholesterol Pro™ features two ingredients that have been scientifically tested for their effects on serum lipid levels.* Bergamonte™, a standardized polyphenolic extract derived from Bergamot (*Citrus bergamia*), has a unique profile of citrus bioflavonoid constituents. Bergamonte™ has been shown in clinical studies to help to maintain serum cholesterol levels already within the healthy range and may also support normal blood sugar management.* CardioAid®, a proprietary plant sterol combination of Beta-Sitosterol, Campesterol and Stigmasterol, has also been demonstrated to support healthy cholesterol levels already within the normal range and promotes overall cardiovascular health.*

CAUTIONS/INTERACTIONS: Certain Bergamot constituents may interact with some photosensitizing medications. This product may also interact with cholesterol-lowering medications. Ezetimibe inhibits intestinal absorption of beta-sitosterol. Therefore, this product should not be used in combination with Ezetimibe. Pregnant/lactating women or those currently taking other medications should consult with a healthcare practitioner prior to use.
