

USAGE: Take 1 capsule 1 to 2 times per day between meals or as directed by your qualified health care consultant.

NOTE: If you have a medical condition, are pregnant, lactating, trying to conceive, under the age of 18, or taking medications, consult your health care practitioner before using this product.

Jarrow FORMULAS® Colostrum Prime Life® contains a minimum of 35% immunoglobulins, double the strength of typical colostrum products, because it comes from the first milking.

Colostrum Prime Life® colostrum is collected within 12 hours of calving from American, pasture-fed cows. The colostrum undergoes low-temperature processing along with testing to ensure that the different colostrum immunoglobulin fractions retain their biological activity and are not denatured.

Colostrum Prime Life® also contains **proline-rich polypeptides (PRPs)**, a special class of polypeptides shown to have immune-modulating and gastrointestinal health-promoting properties.*

Colostrum Prime Life® contains **lactoferrin**, an important iron-binding glycoprotein found naturally in tears and saliva that supports immune function and promotes the growth of the good bacteria.*

Colostrum Prime Life® is free of the hormone rBGH, antibiotics, pesticides, and is F.D.A. certified for sale in the USA.

Keep out of the reach of children.
