

High-Performance Raptor HP™
When it comes to packing on muscle and building strength nothing compares to beef. It has been the secret weapon of world-class athletes for decades. Now new innovations in protein science give you the muscle-building superpowers of beef protein in an advanced, rapidly digested, ultra concentrated, 3-dimensional peptide formula..

Introducing New Raptor HP™ - Bioactive Hydrolyzed Beef Isolate Peptides.

New Raptor HP™ changes the game in high-performance protein supplementation. Through scientific innovation and advanced protein science, AST Sports Science has harnessed the muscle-building power of lean red meat and created a high-protein bioactive peptide formula so powerful and so effective - the game has changed forever.

Muscle-Building Magic

New Raptor HP™ is a complete protein formula from hydrolyzed and isolated beef peptides created through an innovative chemical free high-pressure hydrolysis process (HPHTM). You get all the

muscle-building magic of beef minus the excessive calories and with only one gram of fat and virtually no cholesterol and Raptor HP™ is hormone free and allergen free!

New 3-Dimensional "Super-Protein"

Raptor HP™ is a new "super-protein" designed to deliver your muscles bioactive anabolic peptides through "3-Dimensional" 15/30/55 molecular sized peptide ratio. With this innovative peptide ratio you get immediate muscle uptake of the critical muscle-building amino acids needed for rapid muscle repair after training and then both intermediate and sustained amino acid release for nitrogen support during the anabolic growth and recovery phase.

Extended Anabolic Support

Raptor's 3-Dimensional bioactive peptide formula gives you faster nitrogen uptake, rapid muscle recovery, and extended anabolic support.

Packed with muscle-building and energy enhancing amino acids, Raptor HP™ delivers ultra-high bioavailable and ultra-concentrated protein for a new level of muscle growth and performance. †

*Percent Daily Value (%DV) are based on a 2000 calorie diet.

Ingredients: Hydrolyzed beef protein isolate peptides, cocoa powder (processed with alkali), creatine monohydrate, natural and artificial flavors, salt, sucralose, acesulfame potassium.

Directions for Use: Add one serving, 40 grams to 8 to 12 ounces of cold water or milk. Mix well in blender or shaker bottle.

Allergen Free.

How should I take Raptor-HP™?

Raptor-HP™ is as versatile as it is powerful.

1. AM

- Raptor-HP™ makes a perfect high-protein start to your day.

2. Pre-Workout

- Raptor-HP™ before your workout primes your muscles for energy and strength.

3. Post Workout

- Raptor-HP's 3-Dimensional peptide profile makes an ideal post-workout muscle-builder for both rapid protein synthesis and sustained anabolic support.

4. Before Bed

- Raptor-HP™ before bed delivers your muscles a 3-stage peptide release for all night protein synthesis and muscle recovery.

5. Bonus

- Raptor-HP™ makes an awesome late-night or anytime, protein packed treat. Just add a scoop or two of Raptor-HP™ in a bowl, add a small amount of ice-cold milk or water and stir into a smooth consistency. Enjoy Raptor-HP™ as a "pudding-like" treat.
