Refrigerate after opening

Best if used within 3 months after opening

Keep out of the reach of children

Nordic Naturals products are never sold under any store brand

Warning: Consult with your physician before using this product if your baby is allergic to iodine, uses blood thinners, or anticipates surgery.

score

Includes a measured dropper for convenient dosing. Baby's DHA Vegetarian can be easily added to formula or food.

A baby's brain more than doubles in size during the first years of life. DHA is the primary building block of brain tissue.* Adequate intake of DHA is essential for proper brain and visual development, and remains necessary throughout life to maintain brain, eye, and nervous system health.*

Nordic Naturals Baby's DHA Vegetarian is made exclusively from microalgae, nature's original source of marine omega-3, for essential omega nutrition without the use of fish, and is non-GMO and hexane free.

Every batch of Nordic Naturals algae oils is tested by a third-party certified lab for environmental toxins, including heavy metals. All algae oils are in the triglyceride form and surpass the strictest international standards for purity and freshness. Certificates of Analysis are available upon request.
