## Acidophilus

*Survives Stomach Acid*  
*Shelf Stable*

### Supplement Facts

Serving Size: 1 Capsule

	Amount	% DV
Lactobacilli blend ( <i>L.acidophilus</i> La-14, <i>L. bulgaricus</i> Lb-64) (500 Million viable cells per serving)	7 mg	*

\* Daily Value Not Established

Other Ingredients: Capsule (gelatin, water), rice flour, microcrystalline cellulose, silica and magnesium stearate. Contains milk.

The Lactobacillus strains used in this blend are produced exclusively by Danisco, a world leader in probiotics.

Danisco's probiotic strains are stabilized using a patented poly matrix system (patent # 6,653,062) that provides shelf stability at normal room temperature. No refrigeration required.

Each Bio-Enhanced, Acid Resistant Strain (BEARS) has been specifically designed to survive stomach acid secretions during digestion. BEARS eliminates the need for enteric coating by preventing the destruction of viable cells that occurs when weaker strains are exposed to an acid environment.

Vitabase uses only high quality ingredients.
