

There are no secrets to recovery – no special tricks you can use. There are, however, time-tested and critical components to growth, such as excellent post-workout nutrition, timed properly, in an effective delivery system. And to that end, there is the brand-new, reformulated Core PWO. †

Our new matrix takes the premise behind the original PWO – combining fast-acting protein and carbohydrate sources – and improves on the idea in a massive way. We've not only added Carb10™ and Cluster Dextrin®, two balanced-insulin response carb sources (each with less bloat and discomfort than maltodextrin), but Velositol® as well – the true star of the show. Clinical research using Velositol® demonstrates that, combined with whey and carbs, it adds some serious horsepower to the protein synthesis process. We also add a heaping serving of free-form L-leucine (5g) to augment the power of Velositol®. †

Together, our changes and these new ingredients have made the best post-workout recovery matrix somehow even better. †

WARNING: This product is only intended for use in healthy adults 18 years of age or older. Pregnant or nursing women should not use this product. Consult your healthcare provider before using this product, especially if you are taking any prescription, over the counter medication, dietary supplement product, or if you have any pre-existing medical condition including but not limited to: high or low blood pressure, cardiac arrhythmia, stroke, heart, liver, kidney or thyroid disease, seizure disorder, psychiatric disease, diabetes, difficulty urinating due to prostate enlargement or if you are taking a MAOI (Monoamine Oxidase Inhibitor) or any other medication. Discontinue use and consult your health care professional if you experience adverse reaction to this product. Do not exceed recommended serving. Do not use if safety seal is broken or missing. Keep out of reach of children.

DIRECTIONS: Add 2 scoops to 8-16 ounces of cold water (according to preferred thickness and flavor) and shake or stir until mixed. Consume immediately after training.
