OMEGA CURCUMIN

1000 mg Omega-3 + 400 mg Optimized Curcumin
With L-Glutathione and NAC
for a healthy response to inflammation*

Superior Triglyceride Form

Dietary Supplement | 1250 mg Soft Gels | 60 Count

Wild caught. Pure. No fishy aftertaste. Friend of the Sea certified.

Every batch of Nordic Naturals fish oils is tested by a third-party certified lab for environmental toxins, including heavy metals. All fish oils are in the triglyceride form and surpass the strictest international standards for purity and freshness. Certificates of Analysis available upon request.

Suggested Use: Two soft gels daily, with food, or as directed by your health care professional or pharmacist.
Store in a cool, dry place, away from sunlight. Do not take if tamper-evident seal is broken or missing. Product protected by U.S. patent #s 6346231 & 6441837, & Longside Patents US9192644, EP 1993365. Keep out of the reach of children.

Nordic Naturals products are never sold under any store brand

Warning: Consult with your physician before using this product if you are pregnant or lactating, are allergic to iodine, use anticoagulants or vasodilators (e.g., nitroglycerin), or anticipate major surgery.

Cellular stressors are commonplace and can be caused by anything from food sensitivities and environmental toxins to free radicals. Omega Curcumin is specifically designed to promote a healthy response to inflammation, maintain optimal cell integrity, and support healthy metabolic balance.*

This unique combination of synergistic, highly bioavailable antioxidants and omega-3s provides a foundation for cellular health and recovery. Omega-3s support the structure and function of every cell in the body, while optimized curcumin influences a large variety of cell signaling pathways. Reduced L-Glutathione is one of the body's most powerful antioxidants, and N-Acetyl-L-cysteine helps neutralize free radicals.*

Science-Based Research. Bioavailability Breakthrough.

Neuroscientists at UCLA have developed patented delivery system to improve the way curcumin is assimilated into the human body. Solid Lipid Curcumin Particle technology (SLCTM) is responsible for the bioavailability breakthrough of optimized curcumin. This form, which is used in Omega Curcumin, is better absorbed (more than 65 times as measured by the C_{max} method and 285 times as measured by the AUC, normalized method), and promotes curcumin levels in the blood that are sustained for a longer duration, compared to other forms of curcumin.

Over 65X Better Absorbed

Comparison of Optimized Curcumin
