

Suggested Usage: Take 2 capsules 20 minutes before meals, twice daily. Persons with sensitive stomachs may prefer to take capsules with food.

Quercetin is a naturally occurring free radical scavenger that supports healthy seasonal immune system function.* Laboratory studies have demonstrated that Quercetin can also help to promote normal respiratory function.* Bromelain has a long history of use by herbalists and is known to help support a balanced immune system response to environmental challenges.* This complementary combination may thus promote year-round respiratory health and support overall seasonal comfort.*
