LEMONADE BURST
NATURAL FLAVORS

MAXIMIZE MUSCLE BUILDING\*^

Creatine is one of the most misunderstood supplements, yet one of the most important tools for improving strength... Creatine is used by your muscle cells to produce energy. During strenuous exercise, your body uses this energy source to help you power through your workouts. Supplementing with creatine will also help replenish muscle creatine.

^When used in conjunction with an exercise program.

CODE 791309 JRG
DIRECTIONS: As a dietary supplement, consume 1-3 chews before, during or after working out. For maximum results, take 3 chews.

Table with 3 columns: # Chews, Creatine (mg), Benefit. Row 1: 1 chew, 1000mg, important for energy production. Row 2: 2 chews, 2000mg, improves strength and athletic performance.
