GNC Ultra Strength Omega-3 Soft Chews are great-tasting, sugar free and make a convenient alternative to pills. Fish oil naturally provides the heart-healthy omega-3 fatty acids EPA (Eicosapentaenoic Acid) and DHA (Docosahexaenoic Acid). Each soft chew features a total of 180 mg of omega-3 fatty acids (160 mg total of EPA and DHA).

A landmark study involving over 11,000 participants has confirmed the major benefits of fish oil on cardiovascular health. The omega-3 fatty acids found in fish oil are necessary for heart health.* They help support normal, healthy cholesterol levels and are necessary in the maintenance of normal blood pressure.* Individually, EPA is important for circulatory system health, and DHA provides support for healthy triglyceride levels.*

In addition to the numerous heart health benefits, fish oil also:

- Supports joint and skin health*
- Supplies DHA which is required for optimal eye and brain function*

The fish oil in GNC Ultra Strength Omega-3 Soft Chews has been purified and manufactured for freshness and found to be free of detectable levels of mercury, cadmium, lead and PCBs. We use only the best quality ingredients derived from wild, deep ocean fish.

To ensure a complete nutritional program, take daily with these GNC products:

- Premium GNC Multivitamin
- TriFlex™
- Ultra Probiotic Complex
- CoQ-10
