

Papaya - Fruit of the Angels - is native to South America and has been cultivated for centuries for its amazing health benefits. This 100% pure product comes from unripened papaya picked while still green to retain all its natural enzymes of papain, fibrin and chymopapain. These enzymes help break down protein, fats and carbohydrates, and support a healthy digestive and immune system*.

Herbal Papaya is committed to bringing you the finest selection of products, made from the highest quality, GMO-free papaya leaves. We support farmers in communities where our products are grown and give 10% of profits to education and innovation programs for African girls.
