

Shilajit is a potent adaptogen composed of compressed humus and organic plant material. Five-thousand year old Ayurvedic texts discuss uses for this very special compound, and many herbalists consider shilajit to be the most important tonic substance in traditional Ayurveda. Shilajit consumption supports:

- **endocrine function*** • **detoxification***
- **energy metabolism*** • **immune function***
- **brain function*** • **better nutrient absorption***

Shilajit Supreme™ is gathered from a pristine high mountain region of the Himalayan Mountains of India and concentrated via a unique, full-spectrum, cold water extraction and filtration process (below 100°F) into a nutrient-rich powder that is abundant in dibenzo-alpha-pyrones, plant-based trace minerals, unique phytochemicals and amino acids, antioxidants, and naturally high concentrations of fulvic acid (over 50%). Shilajit Supreme™ is tested for identity, pesticides, irradiation, GMOs, solvent residues, heavy metals, and fulvic acid content to assure the highest level of purity and potency.

"HYPE IS NOTHING. SUBSTANCE IS EVERYTHING!"
