

Shilajit is a powerful adaptogen which supports energy, detoxification, endocrine function, and brain health.* Shilajit Supreme™ is gathered from a pristine high mountain region of the Himalayan Mountains of India and concentrated via a unique, full-spectrum, cold water extraction and filtration process (below 100°F) into a nutrient-rich powder that is abundant in dibenzo-alpha-pyrones, plant-based trace minerals, unique phytochemicals and amino acids, antioxidants, and naturally high concentrations of fulvic acid (over 50%). Shilajit Supreme™ is tested for identity, pesticides, irradiation, GMOs, solvent residues, heavy metals, and fulvic acid content to assure the highest level of purity and potency.
