

## THE STORY OF THE WORLD'S #1 SUPERFOOD:

Spirulina has been consumed for thousands of years by indigenous cultures around a number of natural lakes. Two different strains of spirulina exist – Arthrospira platensis (indigenous to Lake Chenghai and Lake Chad) and Arthrospira maxima (indigenous to Lake Texcoco). Spirulina Azteca™ is the strain native to Lake Texcoco, which was used by Aztec runners and warriors for strength and endurance. Spirulina is a true superfood. It contains vitamins (such as non-toxic

vitamin A in the forms of carotenoids, and B vitamins), minerals, trace elements, antioxidants, chlorophyll, and phytonutrients. Spirulina is over 60% “complete” protein, and contains a unique blue pigment (phycocyanin) that supports liver and kidney function.\* Being a whole food, the minerals in spirulina, such as iron, are NOT toxic. The broad spectrum nutrition and immune system support provided by spirulina place it firmly as the #1 superfood in existence. **Spirulina is a FOOD!**

**SUGGESTED ADJUNCTS:** A whole foods, organic, Vegan diet with emphasis on fresh, high-water-content, uncooked/raw foods and juices, MacaForce™, Vitamineral Green™, Vitamineral Earth™, exercise, a positive attitude, and fresh air (get plants).

**SPIRULINA NUTRITIONALLY SUPPORTS BLOOD SUGAR, IMMUNE SYSTEM, AND KIDNEY FUNCTIONS.\***

*I am deeply committed to researching and developing the highest quality, most effective, life-enhancing nutritional products based on my ongoing research into life force, whole foods, enzymes, Mother Nature, and true science – with a reverence for all life. I wish you great health and happiness always.*
